# WELCOME INTRODUCTION

---

**Dear participants, Dear speakers,  
Dear sponsors,**

MedTech Europe is delighted to have hosted a successful MedTech Forum. This year's Forum has highlighted just how innovative the medical technology sector is, and how much it contributes to patients and healthcare systems.

The medical technologies sector has a lot to offer – in the past years, we have had a deep and positive impact on the way healthcare is delivered. We are looking forward to the future – the future of our sector, the creativity and innovation power in Europe, and the role that our industry will have in transforming healthcare.

Medtech innovations offer needed solutions to Europe's challenges, but only if they can get through the European maze, and to the patients and healthcare systems that need them. It is paramount for Europe to put special attention to keep its historical attractiveness for our industry.

Best regards,

**Oliver BISAZZA**  
Chief Executive Officer  
MedTech Europe
